EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Katz on December 6th 2005.

The application has been amended as follows:

Cancel claim 18.

Allowable Subject Matter

2. After a further search and a thorough examination of the present application and in light of the Applicant's arguments and in light of the prior art made of record, claims 1-2, 4-6, 8, 10-11, 13-15, and 17 are found to be in condition for allowance.

Reasons for Allowance

3. The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose a method and apparatus for detecting scene change including a feature quantity extracting unit which extracts a

feature quantity based on top and bottom double data in vertical direction of an image with respect to a field structure image when a judgment result of an image structure judging unit is a frame structure, and a scene change judging unit operable to judge a scene change by use of the quantity of variation calculated by an extracted data comparing unit.

It is noted that the closest prior art of record (Nagai US Patent no. 5,642,239) teaches a similar apparatus for detecting scene change, however, Nagai fails to particularly teach or suggest *“extracting a feature quantity based on top and bottom double data in vertical direction of an image with respect to a field structure image when a judgment result of an image structure judging unit is a frame structure, and judging a scene change by use of the quantity of variation calculated by an extracted data comparing unit”* as specified in the claims.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled “Comments on Statement of Reasons for Allowance”.
